FROM: Thomas N. Tetting, Geologist 

RE: Inspection of Lucky 13 Operation, DCW & Co,
DOE/019/014, Grand County, Utah

On August 22, 1984 Tom Tetting and Jim Smith of the Division briefly observed the status of the above mentioned placer operation through field glasses from the opposite side of the Colorado River. It appeared that no activity had taken place recently and that the operation had not expanded from the DOE status.
